

Application for Conformity Assessment for a part of a measuring system in accordance with WELMEC Guide 8.8

**Company
(applicant):**

hereby applies to RISE Research Institutes of Sweden AB, Body, in accordance with the MID-directive 2014/32/EU (Measuring Instruments Directive) for technical review, testing, certification for the following products and conformity assessment procedure (EC or PC) registered below

Note: The certificate that will be issued is not a MID certificate

Conformity Assessment Procedure according to Welmec 8.8

<input type="checkbox"/> Evaluation certificate (EC) <i>Parts that have been issued with an EC can only be used by manufacturers of complete measuring instruments after permission of the holder of the EC. The owner of the EC has to give individual permission that copies of the technical documentation, PER or ER and certificates shall be made available on request to other notified Bodies in the cause of a conformity assessment procedure.</i>	<input type="checkbox"/> Part certificate (PC) <i>Parts that have been issued with a PC can be freely used by manufacturers of complete measuring instruments. The owner of the PC agrees a priori, with the application for a PC, with the free use of the PC, and that copies of the technical documentation, PER or ER and certificates shall be made available on request to other notified Bodies in the cause of a conformity assessment procedure.</i>

Conformity Assessment Procedure according to Welmec guide (WG) 10.7*

Yes

No

**A purely digital self-service device (SSD) for direct sales to the public may be evaluated according to WELMEC Guide 10.7. In this case, electromagnetic, mechanical and climatic environments will not be specified in the EC/PC.*

Application for Conformity Assessment for a part of a measuring system in accordance with WELMEC Guide 8.8

The applicant, in accordance with Welmec 8.8, hereby confirms that:

- together with the application, the producer provides the technical documentation in line with article 10 of the MID;
- he is aware of that the technical documentation, the PER or ER shall be sent by the Notified Body to the market surveillance authorities of the member states if they request for it in respect to Article 19 of the EC Regulation 765/2008;
- he may need to provide the manufacturer of measuring instruments, to whom he has given permission to use its part, with the necessary individual technical data for the compatibility with other parts, interfaces and sub-assemblies as foreseen in the relevant OIML recommendations, harmonised standards, normative documents, WELMEC guides and/or the compatibility sheets;
- he shall ensure that each individual part he provides with reference to the PC or EC is in conformity with the type/pattern that was evaluated and certified;
- he shall inform the Notified Body, which has issued the EC or PC, of any modification that may affect the conformity of the part or the conditions of validity of the EC or PC, so that an evaluation of the modified part can be performed. This evaluation may result in a revision of the PC or EC being issued. The producer shall inform the manufacturers using the part of the modification;
- he cannot affix the supplementary metrology marking and Notified Body number according to MID on the part, and he cannot provide or make any general statement of conformity to the MID based on the PC or EC issued by the Notified Body. However there is no objection to putting the EC or PC number on the part.

The applicant also confirms that:

- that he agrees to fulfil the requirements for certification, as given in SPs Certification Rules SPCR 181 as well as in SPs *General certification regulations for certification of products, CR000* (SP INFO 2010:23)
- that SP is allowed to publish official lists of issued EC/PCs including a copy of the certificate.

In case of conformity assessment according to WG 10.7, the applicant also confirms that:

- the SSD bears the CE-mark;
- the purely digital SSD does not include the power supply for the MI;
- the price calculation is performed by the fuel dispenser;
- the SSD cannot be disturbed or fraudulently manipulated through the interface of the SSD;

Application for Conformity Assessment for a part of a measuring system in accordance with WELMEC Guide 8.8

- Special attention in the technical documentation is paid to:
 - General description of type, and explanations necessary to understand the functioning of the SSD;
 - List of descriptions and characteristic data of all devices incorporated in the SSD, such as but not limited to: interfaces, indicating devices, printing devices, data storage devices.
 - List and description of the checking facilities of the SSD (see WG10.7, paragraph 4.2.2 and chapter 6, section 4.3 for the required checking facilities);
 - Software description, communication protocols, means for securing the software;
 - Information concerning special cases, such as but not limited to: special operating conditions, reaction of the SSD to significant faults, functioning of the SSD after switch on.
 - A declaration of conformity stating that the hardware of the SSD complies with the applicable directives, in particular the EMC directive.

Other information

Application for Conformity Assessment for a part of a measuring system in accordance with WELMEC Guide 8.8

The following information shall be appended:

New certificate: If the application is regarding a new certificate specifications of the product/s applied for shall be enclosed, preferably electronic documentation, including a list of documents.

A special annex to the application can preferably be used (in applicable parts for the product); “Ansökan MI-005 Measuring systems LOTW”.

Revision of certificate: If the application is for revision of a certificate documentation concerning the changes/additions shall be appended (instrument specific appendices in accordance with above can be used as a guide)
